Sumter County, FL –

The Board of County Commissioners (BOCC) approved a new, streamlined Solid Waste Fee Schedule for the Citizen's Drop-off Area (CDA), which will take effect on January 1, 2021. This new and improved fee schedule has dramatically reduced the number of categories of fee charges. Notable changes to the fee schedule include increases and decreases to existing fees and removal of the individual solid waste permits. Current permits will be valid until December 31, 2020.

The new fee schedule will be posted on the Sumter County website and at the CDA drive-through window.
